

In an effort to build and coordinate community resources within the rat genetics/omics community, we have a schedule a short meeting the day before the NIDA Genetics Consortium Meeting in DC in January. We believe this will be a great opportunity to coordinate efforts and to make the community aware of new and established efforts to build omics resources for the rat.

International Rat Omics Consortium (IROC) Meeting

Sunday, January 13th from 1pm to 5pm (EDT)

Bethesda North Marriott Hotel & Conference Center
5701 Marinelli Road
Rockville, Maryland 20852 USA

Link to Agenda: <https://bit.ly/2RWBQGn>
RSVP by January 4th to Laura.Saba@ucdenver.edu

The Marriott has block off a few rooms for us for the night of the 13th for \$149 per night. If you would like to take advantage of this, you can call them directly and let them know that you are with the University of Tennessee Health Science group.
